Professional Summary

Mobile App Developer with 5 years of experience specializing in Flutter and Native Android (Kotlin). Skilled in building scalable, maintainable, and testable applications with a focus on performance, UI/UX, and clean architecture. Proficient in API integration, advanced state management, and debugging. Adept at contributing across full development lifecycles and adapting to cross-functional team environments to deliver impactful solutions.

Technical Skills

Languages: Dart, Kotlin, Java

Frameworks: Flutter, Android SDK

State Management: Provider, GetX, BLoC

Architecture: MVVM, Clean Architecture

Tools: Git, GitHub, GitLab, Android Studio, Postman, Figma

API Protocols: RESTful APIs, WebSockets

Others: YouTube Player, Google Maps SDK, Chart Libraries, In-App Purchases, Notifications, Ad Integration

Core Competencies

- Cross-Platform Mobile Development (Flutter)
 - Native Android Development (Kotlin)
 - Scalable App Architecture & Modular Code
 - API Integration (RESTful & GraphQL)
 - Advanced State Management (Provider, GetX, BLoC)
 - Custom UI Design & Responsive Layouts
 - Performance Tuning & App Optimization
 - Clean Code Practices (SOLID, DRY, KISS)
 - Git Version Control & Collaboration
-

Professional Experience

Software Engineer

Riseup Labs | *October 2022 - Present*

- Developed high-performance apps in Flutter and Android (Kotlin) with clean architecture.
- Implemented state management using Provider, GetX, and BLoC.
- Integrated RESTful APIs, payment gateways (bKash, ABA), and deep linking.
- Collaborated with designers and backend teams to deliver seamless UI/UX.
- Resolved performance issues and enhanced app stability through effective debugging.

Flutter Developer

Tickets For Travel | *January 2021 - September 2022*

- Built cross-platform mobile apps with Flutter focusing on performance and scalability.
 - Integrated RESTful APIs, WebSockets, Google Maps, and Places API.
 - Collaborated on UI/UX implementation and worked closely with backend teams.
 - Improved app stability and user experience by resolving bugs and optimizing performance.
-

Projects

eCook

Built with Flutter, GetX, RESTful API, bKash & ABA Payments, Deep Linking, Multi-language

Smart energy tracking app integrated with electric stove devices. Displays daily usage, cost comparisons, and allows secure payment. Includes deep linking, tutorials, FAQs, and multi-language support.

[Android App Link](#) | [iOS App Link](#)

শিক্ষক সহায়িকা

Built with Flutter, GetX (State Management), RESTful API, YouTube Player

An educational tool for teachers featuring NCTB guides, PDF viewer, video tutorials, and embedded web content.

[Android App Link](#)

U-Youth Burkina

Built with Kotlin, XML, MVVM, Retrofit, Coroutines, ExoPlayer, RESTful API

Youth engagement platform with modules like Stories, Community Chat, Opinion forms, Results tracking, and U-Programa. Developed using MVVM and Coroutines with media and task handling features.

U-Report BD

Built with Kotlin, Java, MVVM, Retrofit, Coroutines, YouTube Player, Multi-language

App includes Stories, video playback, and dynamic surveys from JSON via ONA. Built with MVVM architecture, supports multiple languages, and displays survey results for real-time insights.

Education

Bachelor of Science in Computer Science and Engineering (CSE)

Model Institute of Science and Technology (MIST), Gazipur, Bangladesh

Graduation Year: 2019

Language

- Bengali: Native
 - English: Intermediate Proficiency (*Good comprehension, moderate speaking skills*)
-

Awards

Best Software Developer – Q2 & Q3 2024

Recognized by Riseup Labs for exceptional performance, innovation, and impactful contributions to mobile application development.
